

From the INTERNATIONAL BUREAU

PCT

NOTIFICATION OF TRANSMITTAL
OF COPIES OF TRANSLATION
OF THE INTERNATIONAL PRELIMINARY REPORT
ON PATENTABILITY
(CHAPTER I OR CHAPTER II
OF THE PATENT COOPERATION TREATY)
(PCT Rules 44bis.3(c) and 72.2)

To:

YOSHITAKE, Kenji
Kyowa Patent & Law Office
Room 323, Fuji Bldg.
2-3, Marunouchi 3-chome
Chiyoda-ku, Tokyo 1000005
JAPON

| | |
|---|--|
| Date of mailing (day/month/year) 07 December 2006 (07.12.2006) | |
| Applicant's or agent's file reference 152884-299 | IMPORTANT NOTIFICATION |
| International application No. PCT/JP2005/003581 | International filing date (day/month/year) 03 March 2005 (03.03.2005) |
| Applicant DAI NIPPON PRINTING CO., LTD. et al | |

1. Transmittal of the translation to the applicant.

The International Bureau transmits herewith a copy of the English translation of the international preliminary report on patentability (Chapter I).

The International Bureau transmits herewith a copy of the English translation of the international preliminary report on patentability (Chapter II).

2. Transmittal of the copy of the translation to the designated or elected Offices.

The International Bureau notifies the applicant that copies of that translation have been transmitted to the following designated or elected Offices requiring such translation:

None

The following designated or elected Offices, having waived the requirement for such a transmittal at this time, will receive copies of that translation from the International Bureau only upon their request:

AE, AG, AL, AM, AP, AT, AU, AZ, BA, BB, BG, BR, BW, BY, BZ, CA, CH, CN, CO, CR, CU, CZ, DE, DK, DM, DZ, EA, EC, EE, EG, EP, ES, FI, GB, GD, GE, GH, GM, HR, HU, ID, IL, IN, IS, JP, KE, KG, KP, KR, KZ, LC, LK, LR, LS, LT, LU, LV, MA, MD, MG, MK, MN, MW, MX, MZ, NA, NI, NO, NZ, OA, OM, PG, PH, PL, PT, RO, RU, SC, SD, SE, SG, SK, SL, SM, SY, TJ, TM, TN, TR, TT, TZ, UA, UG, US, UZ, VC, VN, YU, ZA, ZM, ZW

3. Reminder regarding translation into (one of) the official language(s) of the elected Office(s).

The applicant is reminded that, where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability (Chapter II).

It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned within the applicable time limit (Rule 74.1). See Volume II of the PCT Applicant's Guide for further details.

WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/JP2005/003581

Box No. I

Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.
☐ This opinion has been established on the basis of a translation from the original language into the following language
_____, which is the language of a translation furnished for the purposes of international search (under Rule 12.3 and 23.1(b)).
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
 - a. type of material
☐ a sequence listing
☐ table(s) related to the sequence listing
 - b. format of material
☐ in written format
☐ in computer readable form
 - c. time of filing/furnishing
☐ contained in the international application as filed
☐ filed together with the international application in computer readable form.
☐ furnished subsequently to this Authority for the purposes of search.
3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
4. Additional comments:

**WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY**

International application No.

PCT/JP2005/003581

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

| | | | |
|-------------------------------|--------|----------------------|-----|
| Novelty (N) | Claims | 13, 15-17, 20, 21 | YES |
| | Claims | 1-12, 14, 18, 19, 22 | NO |
| Inventive step (IS) | Claims | | YES |
| | Claims | 1-22 | NO |
| Industrial applicability (IA) | Claims | 1-22 | YES |
| | Claims | | NO |

2. Citations and explanations:

Document 1: JP, 2003-255103, A (Fuji Photo Film Co., Ltd.), 10 September, 2003 (10.09.03), claims, [0014]-[0018], [0036], [0120]-[0126] (Family: none)

Document 2: JP, 2003-183592, A (Dainippon Printing Co., Ltd.), 03 July, 2003 (03.07.03), claims (particularly, claims 14, 17, 20), [0016], [0119], [0123], [0124], [0132]-[0145], & WO, 03-027189, A1

Document 3: JP, 2002-79600, A (Toppan Printing Co., Ltd.), 19 March, 2002 (19.03.02), claims (Family: none)

Each of documents 1-3 is a document cited in the ISR.

Claims 1-12, 14, 18, 19, and 22

Document 1 describes an antireflective film, in which a low refractive index layer comprising (1) an ionizing radiation crosslinking resin and (2) inorganic fine particles in which a surface treatment is performed by a coupling agent and the average particle size is 1-200 nm, is formed on a transparent support body. Furthermore, besides the above description, the document describes that a hard coat layer, a medium/high refractive index layer and/or an antidazzle layer are provided.

Therefore, claims 1-12, 14, 18, 19, and 22 do not appear to be novel or to involve an inventive step in view of document 1.

Document 2 describes an antireflective film having a low refractive index layer composed of a coating composition comprising (1) an ionizing radiation-curable binder and (2) inorganic superfine particles whereof the surface is hydrophobic and the particle size is 1-500 nm. Furthermore, besides the above description, the document describes that a hard coat layer and/or a medium/high refractive index layer are provided.

Therefore, claims 1-12, 14, 19, and 22 do not appear to be novel or to involve an inventive step in view of document 2.

Claims 13, 15-17, 20, and 21

Document 3 describes that a low refractive index layer constituting an antireflective laminate is formed so as to have a film surface in which a 10-point average roughness Rz is 100 nm or less and an arithmetic average roughness Ra is 2-10 nm in a minute region of its 5 µm square. It is not considered especially difficult for a person skilled in the art to conceive of manufacturing an antireflective film or coating having a similar rough surface in the invention described in document 1 or 2 which also relates to an antireflective laminate.

Furthermore, as well as the above descriptions of documents 1 and 2, providing other layers, for example an antistatic layer, a protective layer and the like, was also already popular in the technical field of an antireflective laminate before the filing date of the present application. It is not

WRITTEN OPINION OF THE
INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/JP2005/003581

Box No. V

Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement

considered especially difficult either for a person skilled in the art to conceive of employing a constitution in which a layer as described above is further provided in addition to the layer constituting an antireflective film or coating described in documents 1 and 2.

Therefore, claims 13, 15-17, 20, and 21 do not appear to involve an inventive step in view of documents 1 and 3 or documents 2 and 3, and common general technical knowledge.
